Dark Abortion-Related Realities in the Black Community Revealed

Contact: Catherine Davis, [National Black ProLife Coalition](#), 678-984-0445

ATLANTA, Feb. 17, 2011 /[Christian Newswire](#)/ -- The recent indictment and arrest of Pennsylvania abortionist Kermit Gosnell shocked many in the black community. In a raid of his facilities police found jars containing the remains of pre-born babies dating back 30 years along with squalid and unsafe conditions. The National Black ProLife Coalition is outraged as more and more abortionists are being exposed for similar unsafe and abusive practices.

Charges against abortionists such as Nicola Riley, Andrew Rutland and James Pendergraft include frightening women into agreeing to unnecessary hysterectomies, botching surgeries, lying to patients, falsifying medical records, over-prescribing painkillers and having sex with patients. One of these abortionists perforated the uterus and pulled out part of a woman's intestine. Another heads a secret "Fetal Lethal Injection Center" in the Washington, D. C. metro area where late-term abortions are partially completed.

All of these abortionists set up shop in urban areas where blacks reside targeting black women. Stephen Broden of The Fair Park Bible Fellowship in Dallas Texas calls for new measures of accountability from black leaders. "Leaders such as Jesse Jackson, Al Sharpton, the NAACP, Urban League, and The Congressional Black Caucus have capitulated to the abortion industry for their personal gain. By their silence or outright support of abortion they encourage these butchers in their targeting of our women and babies for profit."

"If silence is indeed consent the Congressional Black Caucus and the NAACP have not only consented to Planned Parenthood and the abortion industry's murder of black babies, but are complicit in the horrific reality of genocide of their own people," said Walter Hoye of Issues4Life Foundation.

Will Ford of Ex Ministries agreed. "The Congressional Black Caucus has a 100% voting record in favor of taxpayer funding of Planned Parenthood. This is a travesty in light of Planned Parenthood's targeting of the black community since its inception as a means of population control."

"These national black organizations are in partnership with Planned Parenthood, an organization that is not genuinely concerned about the betterment of the black community," said Arnold Culbreath of Protecting Black Life. "The atrocities uncovered in the Kermit Gosnell case, as detailed in District Attorney R. Seth Williams' report, highlight very dark abortion-related realities in the black community. It is time for national outrage and dialog about abortion, the leading cause of death in the African American community."
