ISRAEL, May 20, 2011 /[Christian Newswire](#)/ -- "A man does not say to his friend: 'I will protect you from your enemy, but you must chop off your hand and give it to him first.'" Said Dr. Alveda King, pro-life activist. "The people of Israel and the land are one. Bless the people and the land will yield blessings to the world. Cut off the Israeli people from the land and the land will not prosper."

"The very idea that Barack Obama would endorse the Palestinian position by saying the border lines should be rolled back to where they were in 1967 is almost laughable," said Day Gardner, President of the National Black Pro-Life Union.

"Apparently, our great country is saddled with a milk-toast president who with all his degrees, and accomplishments doesn't understand the very basics of the importance of ensuring Israel is able to protect herself," said Gardner.

"For decades, Americans have taken comfort in knowing that we are Israel's ally," said Dr. King. "How can we pray for the peace of Jerusalem if we move to deny them and the world the rights to weep at the Wailing Wall and be freely refreshed in River Jordan?" She said.

"The Palestinians don't want peace, they want to destroy Israel. Prime Minister Netanyahu has every right to reject this proposal from the Obama Administration. Consider how we as US Citizens would react if it were proposed that our borders should be redrawn with us surrendering our entire eastern seaboard to a country such as Iran," said

Gardner.
