FOR IMMEDIATE RELEASE

Issues4Life Foundation – No Safe Abortions.

Union City, CA (**ISSUES4LIFE FOUNDATION**) Tuesday, March 3rd, 2009 – Just as choice without consequences does not exist and is merely a figment of our imagination; safe abortions are also imaginary, existing only in the minds of those either profiting from abortion or those desperately seeking justification for Prenatal Murder. In reality safe abortions do not exist.

IMPORTANT BACKGROUND: The Institute of Medicine, in 2006 and 2007, **confirmed** "prior first trimester induced abortion" is an "immutable medical risk factor associated with pre-term birth." [1]

According to a study in the Journal of American Physicians and Surgeons, Volume 13 Number 4, Winter 2008, entitled "Does Induced Abortion Account for Racial Disparity in Preterm Births, and Violate the Nuremberg Code?" Black American women have three (3) times the risk of suffering an early preterm birth (**EPB, birth under 32 weeks**) and four (4) times the risk of an extremely preterm birth (**XPB, birth under 28 weeks**). [2]

Authored by Brent Rooney, M.Sc., Byron C. Calhoun, M.D., M.B.A. and Lisa E. Roche, J.D., this study reports a "statistically significant" increase in the risk of **EBP** or **XPB** in women who have a history of induced abortion (**IA**) when compared to women with no history of **IA**. [2]

According to Rooney, Calhoun and Roche, "about **43% of pregnancies in Black American women** end in **IA**." In the United States of America the most common **IA** method is Vacuum Aspiration (**VAA**). This study reveals the fact that **VAA** has never been proven safe in animal studies. [2]

This is significant because the use of procedures that have not been proven safe is a violation of the "**Nuremberg Code Of Ethics On Human Research And Experimentation**." [2]

When one considers that fact that **XPB** babies have a 129 times higher risk of being born with the horribly debilitating effects of cerebral palsy (**CP**). [2]

When one considers that fact that in the Spring of 2008, federally funded clinics were exposed as having agreed to accept funds from persons who expressly requested that their donation be used to reduce the Black American population. [4]

When one considers the fact that there currently is no law in place in the United States to prohibit the acceptance or solicitation of funds earmarked for aborting a child of a specific race.

When one considers the fact that most American abortion providers, including Planned Parenthood Federation of America, Inc., receive government funds, are responsible for the extermination of an estimated fifty percent (**50%**) of Black Americans conceived in the United States each year.

When one considers the fact that the history of the American family planning movement is replete with evidence of the purposeful placement of family planning clinics in areas with high concentrations of minorities.

When one considers the fact that an overwhelming majority of abortion clinics in America today, including those receiving federal funds (i.e., United States taxpayer dollars), remain disproportionately located in areas with high concentrations of minorities.

Three (3) concepts become very clear:

1. Black babies are not safe in the womb. So unsafe are Black babies in the womb of their mothers that the Black American birth rate has dropped below the replacement level.
2. Black women are being deliberately and disproportionately subjected to a procedure that has not been shown to be safe.
3. "Race Targeted Abortion" is alive and well in America today.

While there are many serious concerns here for the health and well being of mother and child, it is critically important to understand that in all abortions the product of a human father and a human mother (i.e., a human being) is legally murdered.

Regardless of how modern and conveniently located the abortion facility may be.

Regardless of how well educated and trained the doctors and nurses may be.

Regardless of how "**Executively**", "**Legislatively**" and "**Judicially**" United States taxpayers are ruthlessly coerced to pay for the cost of this "**Elective**" procedure.

Regardless of how grossly negligent many Black American Pastors have been when it comes to preaching about the sanctity of human life, tacitly approving the evil practice of abortion.

All abortions shed innocent blood.

All abortions terminate the life of a child.

There are no "Safe Abortions".
